

DID YOU KNOW?

For your goods to enter India, the PESO certificate is absolutely mandatory. Petroleum and Explosives Safety Organisation (PESO) provides a certification that permits businesses to export or manufacture fire safety goods- **without which your company is at risk of getting blacklisted.** Therefore, obtaining the PESO certificate is of utmost importance. Acquiring one is quite cumbersome as it involves several legal formalities. We at Wingrotek can help you get your certificate with ease, as we have done for many successful companies in the past.

We help you obtain PESO approval for:

- High-pressure container valves
- High-pressure discharge valves
- Portable liquid containers
- Cylinders

and more!

We've assisted companies all over the world! Our recent clients hail from the following countries:

**USA | UK | Germany | Denmark | Malaysia | Luxemburg
| China | Czech Republic | India**

Sub: - Import of valves through various Ports in India clandestinely without import licence under Gas Cylinders Rules, 2016

Dear Sir,

It has been reported by

that various types of valves intended to be fitted to various types of cylinders are coming into India from foreign origin clandestinely through various ports of India without having import licence in Form D under Gas Cylinders Rules, 2016.

In this connection, it is requested to kindly refer to the rule No. 3(a), 29(2) of Gas Cylinders Rules, 2016 which prohibit the import of valves without proper Form D licence under Gas Cylinders Rules and also kindly refer to Rule 31 & 32 of the said Rules..

There is also a clear procedure for obtaining import licence from this organisation in Form 'D' for import of valves intended to be fitted on the cylinders and to produce the same to the Commissioner of Customs before clearing the same from the customs.

In view of the above, it is requested to kindly take further necessary action to prevent clandestine import of valves.

Yours faithfully,

(M.K. Jhala)
